Open the GTA San Andreas GoldenPen folder. Put the pen in your inventory. That's the best place to put it. The pen is fully functional and like any other weapon you can hold it in your hand. The pen looks normal when held in your hand. When the game is running, the pen will look like it's not there. This is the only way to use it. It can't be picked up in the game. It must be used from your inventory. You can use the pen in the car. In the game menu it will be found under "Weapons." You will be notified when you receive a gold pen if it is in your inventory. 4bc0debe42
